

Planning your project with your partner(s)

Partners	
Age of pupils and classes involved	
School subjects	
Language(s) used in the project	
Project duration and timeline (hours per week / per month)	
Communication between the partners (tools and methods)	

Title of the project
Brief description of the project
Aims (learning objectives and skills to be developed)

Work process (how responsibilities are shared and calendar of activities)
Expected results (final products, actions, changes in school culture)

Topics that you need to discuss:

Collaboration between students – (how will they work together?)
Digital tools used
Evaluation
Dissemination
