

# WE TOOK PART IN THE PROJECT

Tanja Uusitalo  
Project Coordinator

AS

I am a teacher of English (in my mid-thirties already) who is very interested in philology, different cultures and history. I just love theatre and other performing arts. I think it's amazing how much a person can tell by just moving, changing facial expressions and voice etc.

## MY OPINION ABOUT THE PROJECT

I was a bit worried & stressed during the project as we really had to do a lot: writing the script, agreeing on the roles, all the costumes, decorations, music, directing.... BUT at the end when the whole play was performed to the students and staff of our school, I was just delighted and proud. Proud of the actors who were able to learn their long lines in English by heart and also to transform into quite natural characters living in the times of KALEVALA!
