

WE TOOK PART IN THE PROJECT

Kristina Talanova

AS movie editor

ABOUT MYSELF Hi! My name is Kristina and I am 15 years old. I like reading books, watching movies and spending time with my friends. And of course I like to edit movies.

MY OPINION ABOUT THE PROJECT

I liked this project. It was very interesting and funny to edit the movie about Kalevala. Editing was familiar to me, because I had media studies in the school. The editing of this project took time, because I did it after school. But it didn't matter, because I really liked the movie editing.
